

VERDI

BASIC / TWIN

2 IN 1
VERTICAL
CUTTER

Why is it different?

ADVANCEMENT SPEED REGULATOR

Regulator to adjust the cutting speed of the saw blade depending on the material that needs to be cut (only for models 210, 244 and 305).

ADJUSTABLE LIMIT SWITCH

Allow the possibility to adjust the stop position of the saw blade, which is useful to cut small pieces without losing time.

POWERFUL 1.5 HP ENGINE

Silent and powerful engine to cut very rigid materials with no limitations.

EASY-TO-USE PNEUMATIC SWITCH

Pneumatic switch to quickly and easily activate the pneumatic knife.

PNEUMATIC CLAMPING SYSTEM

Quick system to hold the material and with the possibility of regulating the pressure if it's required.

RELIABILITY IN USE

Equipped with a machined aluminium base to guarantee a good support for the material, which is necessary to obtain a precise and square cut.

INCLUDES

- 10 Utility blades.
- Saw blade.
- Wall mounting kit.
- 2 Hp dust collector: *Not included in Verdi Basic.*

Minimal dust production resulting from backside blade cover. Requires 230 V.

ACCESSORIES

- Arm extension: 1 m extended measuring arm.
- Laser beam:

Can be used in any of the cutting heads.

CUTTING FEATURES

RIGIDS	Saw	Blade
PVC Foamboard	20 mm	5 mm
Aluminium composite / Dibond®	12 mm	-
Aluminium sheets / ChromaLuxe®	3 mm	-
Acrylics / Plexiglas®	12 mm	-
MDF / Wood	20 mm	-
Glass	-	6 mm * / ♦

* Optional accessory required. Only for Verdi 122 and 157 cm. ♦ Score and snap.

SEMI-RIGIDS	Saw	Blade
Foamboard	-	20 mm
Cardboard	-	20 mm
Honeycomb / Re-board®		20 mm
Corrugated plastic	20 mm	5 mm
Passepartout	-	4 mm

The Verdi Twin is a vertical cutter able to cut any type of material up to **305 cm in cutting height and a maximum thickness of 22 mm**. Its unique and complete features guarantee to cover quickly, accurately and smoothly any cutting requirement, from low volume needs to high production ones.

The Verdi Twin is equipped with two cutting systems ready to use: a saw blade on the left to cut rigid materials and a pneumatic knife on the right for semi-rigid ones. The movement of the saw blade is guided through a robust guide system that guarantees a perfect straight cut all along the way and the powerful engine guarantees an accurate result. The pneumatic movement of the knife offers an easy-to-use and fast solution to cut any semi-rigid material.

The Verdi Twin is manufactured in 5 different sizes: The saw blade is manually operated in models 122 cm (48") and 157 cm (61.8"); whereas in models 210 cm (82.7"), 244 cm (96.1") and 305 cm (120.1") the movement is automatically done through a belt-driven mechanism.

All Twin models come equipped with a powerful 2 HP dust collector to guarantee a dust-free operation.

OTHER FEATURES

- Saw blade automatically returns to the upper position after each cut.
- See-through safety blade guard and cutting disc protector.
- Two measurement stops to accurately set up the desired measure to get.
- Laser system available as an accessory, useful to indicate the cutting line.
- All models provided with adjustable legs system.
